

Buy cards from Px100(Carding Santa)

<https://t.me/+7HHBcV1haz1jYmQx>

CREATE A NEW AMAZON ACCOUNT

Using the nonvbv fullz information of the card you bought from wcc, create a new account.

You need name, email and phone to continue. For the first part of the form, you need to fill email and password to continue

Create account

Your name

Mobile number or email

Password

i Passwords must be at least 6 characters.

Re-enter password

By creating an account, you agree to Amazon's [Conditions of Use and Privacy Notice](#).

Use email address you can access to receive sms code to verify it.

Click on **verify email** to continue

Verify Email

Fill in the code sent to your email to show ownership of the email. It's a 6-digit code from amazon.com

Verify email address

To verify your email, we've sent a One Time Password (OTP) to leighallen22@hotmail.com
(Change)

Enter OTP

Verify

[Resend OTP](#)

Click on **verify** to proceed or **resend otp** if you never received any

ADD PHONE NUMBER

Amazon will not let you proceed without a phone number. For better results use a same country phone number as your cc. You can card Skype or google voice to get US phone numbers. Some online receive sms websites also give free phone numbers for verification. You can try <https://receive-smss.com/> to receive verification codes. Note these free services will only work if the number has not been used in Amazon yet.

Add mobile number

+19734947021 [Change](#)

We've sent a One Time Password (OTP) to your phone number. Please enter it below.

Enter OTP

[Create your Amazon account](#)

By creating an account, you agree to Amazon's [Conditions of Use](#) and [Privacy Notice](#).

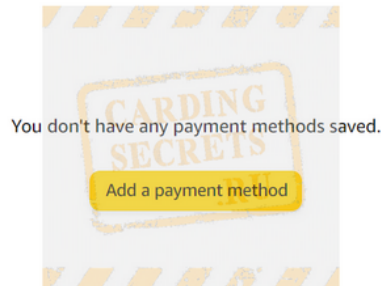

[Resend OTP](#)

After you add your number click on verify to receive otp You need to fill the otp to proceed now so you'll never miss out.

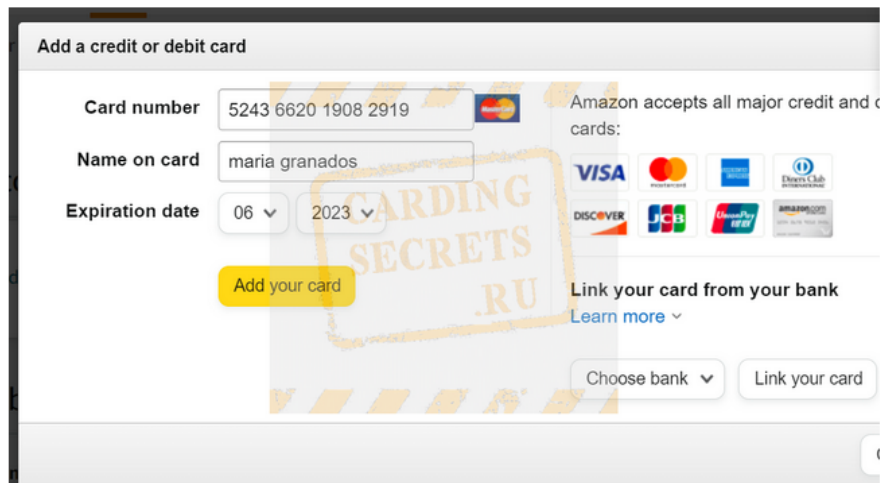

Finally select create your amazon account and you will be set for the next steps

ADD PAYMENT METHOD

Now we need to add the card to our payment methods. Go to your amazon account and click on payment methods. You should have none at the time. Click on add new

Click on add payment method and fill out the form with our cc information
The first part of the form requires you to fill name, cc number and cvv. You will fill billing address in the next part of the form

Click on **add your card** to proceed to the next steps

ENTER CARD BILLING ADDRESS

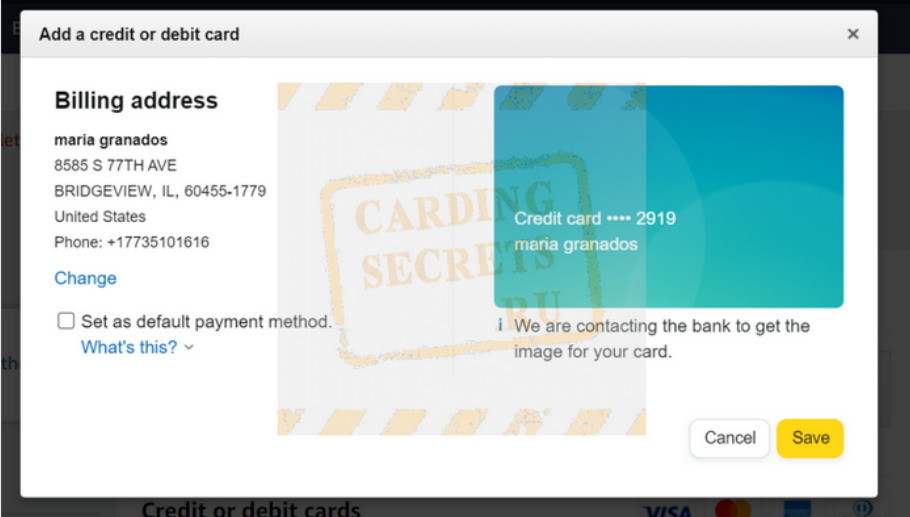

Use the Fullz you got to fill the billing address. You should know that the billing of the card acts as the verification for authorization of the card. some gateways will not charge if the billing is not correct.

Full name	<input type="text" value="maria granados"/>
Address Line 1	<input type="text" value="8585 S 77th Ave"/>
Address Line 2	<input type="text"/>
City	<input type="text" value="Bridgeview"/>
State / Province / Region	<input type="text" value="Illinois"/>
ZIP	<input type="text" value="60455"/>
	<input type="text" value="United States"/>
Phone number	<input type="text"/>

CONFIRM AND ADD CARD

With every detail matching, you will be asked to confirm the card, you can also set it as the default payment method

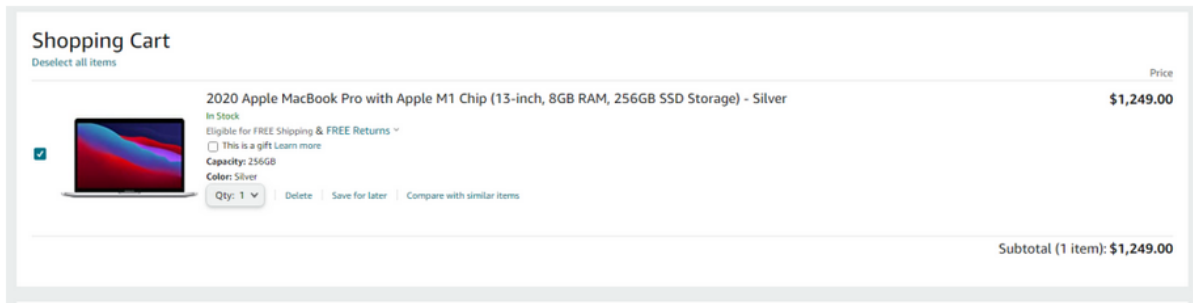

The screenshot shows a modal window titled "Add a credit or debit card" with a close button (X) in the top right corner. The window is divided into two main sections. On the left, under the heading "Billing address", the following information is displayed: "maria granados", "8585 S 77TH AVE", "BRIDGEVIEW, IL, 60455-1779", "United States", and "Phone: +17735101616". Below this is a blue "Change" link. A checkbox labeled "Set as default payment method." is present, with a "What's this?" link and a dropdown arrow next to it. On the right, there is a large teal card image placeholder. Overlaid on this is a smaller, semi-transparent card image showing "Credit card **** 2919" and "maria granados". Below the card image, a message reads: "We are contacting the bank to get the image for your card." At the bottom right of the modal are two buttons: "Cancel" and "Save". The background of the page is dark, showing a "Credit or debit cards" section header and a "VISA" logo.

Now Amazon will give you a confirmation that the card has been successfully added and can be used to charge your orders. This means that the card is live and can be accepted. Now the next step will be to find items to buy

ADD ITEMS TO CART

Find items not exceeding the total balance for your card. Note we will be using a different shipping address so we should not card all the amount from the card. We should use about 80% of the total funds. I recommend below \$1.5k for a 2k or above card balance at first time. Add the items to cart to continue

REVIEW YOUR ORDER

Confirm that you really want to buy the goods in your cart. Here edit the shipping address to any address in the same country. When you do so, Amazon will try to force card 3d verification since you changed address but since you will be using a non2fa card, there will be no difference and no security will be added
